

Processing of Drugs in BiH

Heroin (50 percent)

Bought from Kosovo or Albania is too strong and needs to be mixed with other substances.

Cutting the concentration

Heroin is mixed at a two to one ratio with Paracetamol, Sugar, Caffeine, Rat Poison or other additives to dilute and enhance the effects.

Street heroin

From one kilogram of wholesale heroin a dealer can make three kilograms of street heroin.

Packaging for street sales

Street heroin is packaged in one gram doses worth 50 KM or 0.1 gram doses worth 10 KM.

HARAIĆ

Wholesale price:

20,000 KM per kilogram

One kilogram of heroin is enough to meet the needs of 300 street addicts for 10 days and earn the dealers a 130,000 KM profit.
